

WEARZO

APPARELS PRIVATE LIMITED

QUALIFIED BY QUALITY - DRIVEN BY TRUST

INTRODUCTION

Wearzo Apparels Private Limited is a Hyderabad-based premium apparel manufacturer serving schools, corporates, healthcare institutions, hospitality brands, and security organisations across India. We manage the entire production cycle entirely in-house — from design consultation and fabric sourcing to precision stitching, embroidery, custom branding, and final delivery. Directly associated with mills, we source fabric down to the yarn count, giving our clients complete control over quality and specifications. Precision in every detail, trust in every stitch — that's Wearzo.

WHERE WE COME FROM. WHERE WE'RE GOING.

Our Vision

Apparel is not just fabric stitched together — it represents identity, pride, and belonging. At Wearzo, we exist to honour that. Our vision is to build India’s most transparent, technology-driven apparel manufacturing system — where every client gets a perfect fit, crafted exactly to their specifications, and never has to settle for less. We are integrating AI and technology into every layer of what we do — to make our service sharper, our customisation deeper, and our accountability absolute. Growing hand in hand with the world, because when trust, technology, and craftsmanship come together — the industry transforms.

Our Mission

The Problem We Saw	The Standard We Set
Quality breaks down in bulk orders	Rigorous multi-stage QC on every order, backed by a fabric test certificate
Customisation stops at printing a logo	We go down to yarn count, fabric weight & weave — complete control in your hands
Too many vendors, no ownership	End-to-end responsibility from design to delivery — one partner, zero confusion
Deadlines treated as suggestions	On-time delivery is a commitment, not just a promise
Clients don’t know what they’re getting	Full transparency in materials, specifications & stitching — no surprises

THE PEOPLE BEHIND WEARZO

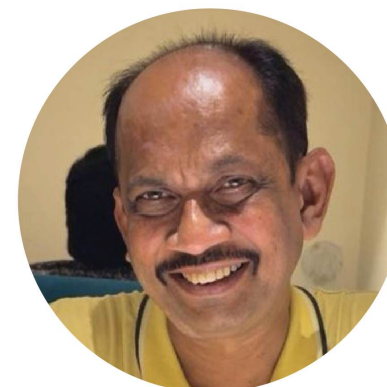

Co-Founder & CEO
Ms. Riddhima Baldwa

The backbone of Wearzo's operations. An Economics & Mathematics graduate from Miranda House, Riddhima spent two years at a leading AI tech startup's Founder's Office — learning to manage people, operations, and fast-moving organisations from the inside out. She brought all of that to Wearzo. People, processes, production workflows — it all runs through her.

Co-Founder & Director
Mr. Devansh Baldwa

Wearzo was Devansh's idea — and it wasn't a sudden one. An Engineering graduate from BITS and former Algorithmic Trading Strategist, he spent 18 months researching the institutional apparel market before making his move. What he found was consistent — fragmented, unorganised, and failing its customers. He built Wearzo to fix that. With a deep passion for AI and technology, his vision is to build Wearzo into a globally scalable, technology-driven apparel powerhouse.

Mentor
Mr. Pankaj Baldwa

The guiding force behind Wearzo. With six decades of textile heritage — from fabric retail to yarn manufacturing to institutional apparel supply — Mr. Pankaj Baldwa brings an irreplaceable depth of industry knowledge that forms the bedrock of everything Wearzo does. He is the anchor that keeps the company grounded while it grows.

END-TO-END SERVICES, ALL UNDER ONE ROOF

Service 01

Custom Job-Work & Contract Manufacturing

For brands and apparel suppliers who have their designs ready and need a reliable, confidential production partner. We manufacture to your exact specifications — high volumes, consistent quality, flexible MOQs, with complete brand protection guaranteed.

Service 02

Private Label Manufacturing

For businesses looking to launch or grow their own apparel brand. We don't just manufacture — we help build your identity. Exclusive designs, custom packaging, and scalable production, all created solely for your brand.

Service 03

Institutional Apparel Programs

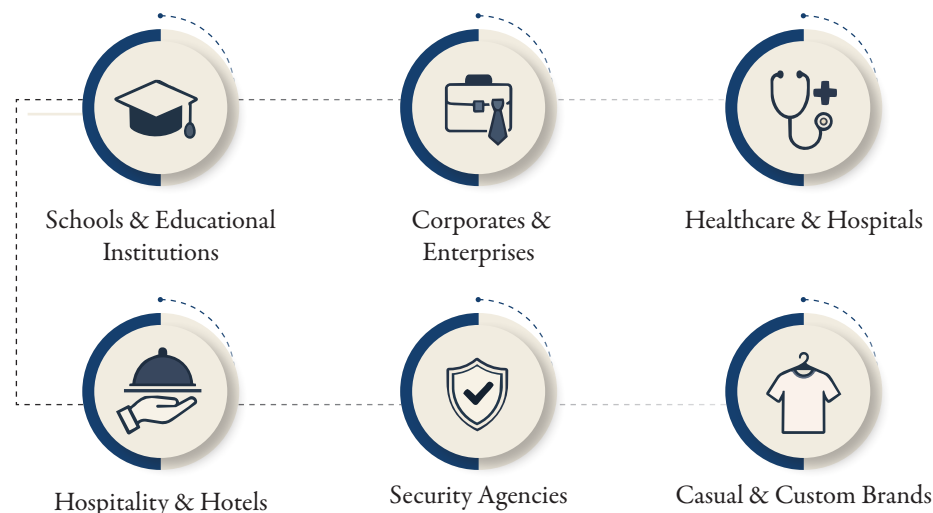

For schools, corporates, hospitals, and organisations that need a complete apparel program managed end-to-end. One point of contact. One accountable partner. From fabric selection to bulk delivery and reorder management.

Service 04

Value-Added Services

The finishing layer that sets your apparel apart — in-house embroidery, DTF printing, screen printing, custom labels, patches, and full brand integration, applied with precision on every single piece.

Industries We Serve:

YOUR ORDER, OUR RESPONSIBILITY — START TO FINISH

✓ *Step 01* — **Discovery & Requirement Understanding**

A detailed discussion to understand your needs — quantities, apparel type, branding, budget, and deadlines. A dedicated Wearzo point of contact is assigned from day one.

✓ *Step 02* — **Design & Specification**

Our team works with you to finalise the look, fit, and feel. Whether you have a ready design or need one built from scratch — we handle it, documented and agreed before production begins.

✓ *Step 03* — **Fabric Selection & Sourcing**

Fabric options sourced directly from mill partners — customisable down to yarn count and weight. You choose exactly what goes into your apparel, with full transparency.

✓ *Step 04* — **Sample Development & Approval**

A pre-production sample is created, delivered, and refined based on your feedback. Bulk production begins only after your final sign-off — no exceptions.

✓ *Step 05* — **Bulk Manufacturing**

Precision cutting, expert stitching across 75+ machines, on a supervised production line — every piece consistent with the approved sample.

✓ *Step 06* — **Embroidery, Printing & Branding**

Logos, prints, labels, and patches applied entirely in-house — your brand identity carried through every single piece, exactly as approved.

✓ *Step 07* — **4-Stage Quality Control**

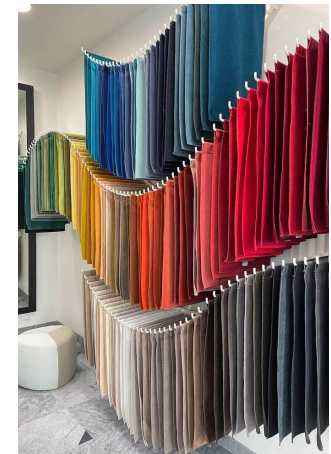

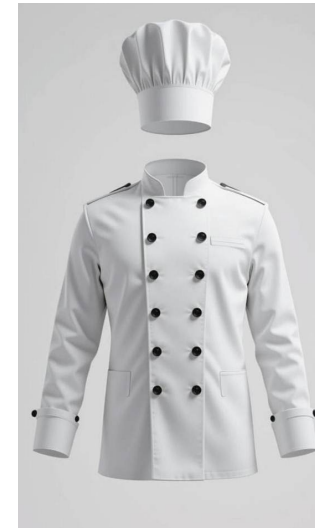

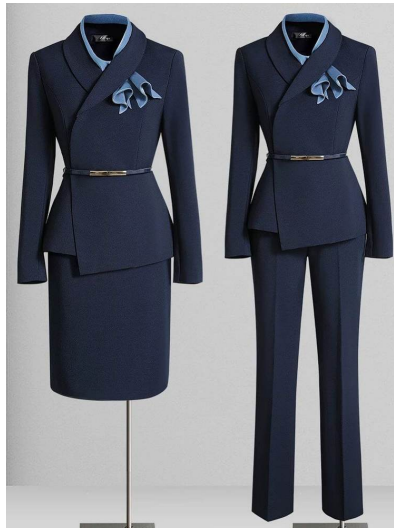

Four dedicated QC checkpoints across fabric, cutting, stitching, and finishing. A fabric test certificate issued with every delivery.

✓ *Step 08* — **On-Time Delivery**

Packed and dispatched on the committed date, every time. Post-delivery support included.
